PHILIPPINE INDEPENDENCE.

It is, and it has been from the date of American occupation, the avowed purpose of the people of the United States to withdraw their sovereignty over the Philippine Islands and to recognize their independence as soon as a stable government was established by the Filipinos. A Mission from the Philippines is now in this country and the reliability of its members is vouched for by Francis Burton Harrison, an American, who has for six years been governor general of the islands. He says, "I have found the native Filipino official to be honest, efficient and as capable of administering executive positions, as any men I have met anywhere in the world. These officials are today governing one thousand municipalities and forty-two provinces, economically, efficiently and for the good of the entire people." With this testimony before us, we may certainly give credence to what the members of the Mission say about what the people whom they represent have accomplished. They tell us that the present 10,000,000 Filipinos and their ancestors have been civilized and Christians for three hundred years and that the census of 1918 showed that the non-Christian population was then only 500,000. They also inform us that they have had colleges and schools for hundreds of years and that their university of Santo Tomas is twenty-five years older than Harvard, that more than fifty years ago, when they had a population of only 4,000,000 people, they had 841 schools for boys and 833 for girls, that in 1892, eight years before the coming of the Americans, they had 2,137 schools, that seventy per cent of their people above ten years of age can read and write and that this percentage of literacy is higher than in any country in South America or in Spain or in many of the countries in Europe. It is further shown that the idea that the Filipinos are poor, lazy and living in a low scale of existence, is entirely an error. The Acting Governor-General, Mr. Yeater, has officially cabled to our War Department that there are a million and a half farms in the Philippines and that ninety-six per cent of these farms are owned by Filipinos. This means that out of the total population of 10,000,000 at least 8,000,000 of them have homes of their own, and they tell us that 91 per cent of the city and village property consisting of building and lands is owned by native Filipinos. More than twenty years ago Admiral Dewey considered these people better fitted for self-government than were those of Cuba. Mr. John Barrett, than whom there is no better authority, compared them favorably with the Japanese government. When the constitution under which they are living was adopted, no less an authority than the late Senator George F. Hoar approved it.

The Filipinos have been our wards for almost twenty years and have given us very little trouble during that period. They were loyal during the late war, gave us a submarine destroyer, oversubscribed Liberty loans and Red Cross funds and offered an armed and equipped division to our government. The area of the islands is only a little less than twice that of New England. Their exports are about \$72,000,000 annually while their imports are about \$53,000,000. This leaves a balance of some \$19,000,000 in their favor and would seem to ensure their future solvency. Bread fruit, coconut, orange, mango, Tamarind and other fruit trees flourish. The islands yield manilla, tobacco, cotton, sugar, coffee, indigo, rice, wheat, maize, spices and, in short, nearly all tropical productions. There is gold, iron, copper, coal, saltpetre, quicksilver sulphur, mother of pearl, amber and tortoise shell. Oxen, horses, sheep, goats and swine of excellent breeds are raised. If the Philippines were in the Caribbean sea they would be worth much to the United States. But they are east of Asia and inasmuch as more than half their trade is with this country and we have land enough without them, it would seem to be not only justice to them but wisdom on our part to let them govern themselves. Why should not such a country with all these things in its favor, be an independent nation?

PANDERING TO SOCIALISM.

The socialism of five years ago was vastly different from the socialism of today. The above creed as promulgated in 1919 explains itself, as being militantly in favor of "nationalization of industry and the redistribution of wealth." In government control of railroads, telephones and telegraphs we have already seen enough of nationalized industry to convince a well balanced mind that this movement, which has been officially advocated and put in practice, has sent scores of properties galloping into bankruptcy. "Redistribution of wealth" if put into effect will be nothing less than forcible robbery by an impetuous and murderous mob. As long as socialism was a dream or at best but a hope in the minds of its advocates, it was regarded with amused tolerance. But today Lenin, Trotsky, the I. W. W. and the ignorant and vicious all over the world have united in making socialism an inflammatory menace. These people are not a little encouraged and made defiant by the knowledge that there are scores of officials of the United States who openly preach socialism, if not with sanction at least without reproach from those higher up. Mr. William Allen White, not long

ago, wrote to the World that the choice of mankind lies between the "revolutionary socialism of Wilson" and the "anarchy" of Lenin. This, if true, is quite as bad as being between the Devil and the deep sea.

When a writer to a great American newspaper says or even intimates that the President of the United States, stands for revolutionary socialism, it becomes interesting to know something about the writer. Who is this Mr. White? He is a rank, outspoken socialist whose home is said to be in Kansas. We do not know why he was taken to Europe, but he is there in an official capacity, and was appointed by Mr. Wilson as an ambassador to go to Russia to meet and confer with the Bolsheviks. His associates on the embassy were all socialists having rather more incendiary purposes and considerably less brains than Mr. White. After his return to Paris Mr. White wrote to the World as stated above. He should cast his horoscope once more. He may have made a mistake. He may find that the real omens show that on the fourth of March 1921, Mr. White, Mr. Steffens, Prof. Herron, Joe Bullitt and all the other socialists of the President's European entourage, will be back here in jail or under the eyes of the secret service men. The stars may also show this hitherto unknown seer, that in the meantime President Wilson's "revolutionary socialism" and Lenin's "anarchy" will be dead as Julius Caesar. It would be of much advantage to Mr. Wilson's reputation as a politician if he would clean house over there and here. He has too much rubbish in the ante-rooms of the star chamber.

One would suppose that the "fighting blood" which Mr. Wilson says he has, would be made hot by the phrase, "the revolutionary socialism of Wilson." We never could understand why the President has chosen men of such small ability to fill official positions here and to represent this country abroad. Neither can we understand now, why he does not get rid of them at once. His specialists and assistant specialists and advisers are not big enough to be of any support or aid to Mr. Wilson or to be of any credit to the country. We are informed that they are all drawing good salaries and have an allowance of eight dollars a day, "pour boire" etc. Taxes are high, the people have just bought Victory bonds and would like to see government expenditures on the basis of Jeffersonian simplicity just as soon as possible. The expedition to Europe has nothing Jeffersonian about it and the sooner all but about half a dozen of its members are shipped home and discharged the better our home folks will be pleased.

The time to pander to modern socialism has past. It has become a menace.

A SWEET CORN CAMPAIGN.

Sweet corn is one of the staple crops in several of the counties of this state and a campaign is to be carried on this year to determine the cost of production in the respective localities. The work is to be under the direction of the county agent. Account books will be furnished to sweet corn growers who will be urged to make accurate records of all costs of production and marketing. After the season is over the cost per pound of the corn in each section will be known and there will be some basis on which to judge of the adaptation of this crop to the different localities. This cost accounting plan will not only show where the raising of sweet corn is profitable but, incidentally, will lead to improved methods of cultivation by reason of the comparison of methods which will follow.

Not long ago 5,000 good American rifles and a large quantity of ammunition went across the border into Mexico. Some of these rifles will probably be used in killing American citizens. There is or was an American mining company operating at Santa Eulalia, Mexico. This company employed about 3,000 people. Villa and his rabble arrived in that vicinity a few days ago, when the Carranza troops joined him and Villa demanded a large sum of money from the American company. The superintendent gathered up the cash and, with his employees, fled to Chihuahua City for safety. The United States has no House of Representatives and only a part of a Senate and the rest of our governing power is in Europe. Experience has shown that it is no use to write any more notes to Mexico and about all that Mr. Wilson can do now is to write a note to Joe Tumulty, for home consumption.

It is said that the Bolshevik control of industries in Russia made this record: Ninety-six million rubles were taken from the public funds for the operation of a manufacturing plant. Within a certain period sixty-six million rubles were paid to the workers in this plant and the whole product was less than fifteen million rubles. This may seem like a highly improbable statement, but after looking at the balance sheet of the government operation of railroads in this country we can readily believe the above report.

The United States Department of Labor tells us that there is an army of unemployed in this country and is frantically sounding an alarm. The Boston Fibre and Fabric has the following to say about the above:

"There is no tangible reason for the present situation. The country is bare of reserve stock and is close up to the going supply. There is plenty of money for all legitimate needs. Yet a handful of well-meaning but wonderfully inefficient government officials and a few thousand I. W. W. agitators are holding back industry and giving foreign competitors a free hand to carry off the trade that belongs at home.

The solution is so simple that it is astonishing to the common people that we are not enjoying boom times. The government should drop all control of industry—establish a tariff that equalizes wages and upholds the American living standard, then put up the immigration bars and ship out about 15,000 selected undesirables or put them in jail for 20 years. This would start a boom that would be the greatest in our history, as it would restore public confidence.

And on this subject the Boston Wage Earner says:

"We have the most advanced country with the highest per capita consumption and the largest body of effective demand in the world. To secure for American producers this greatest aggregate market, with the highest world prices will obviously furnish a stable basis for prosperity. This does not mean antagonizing foreign producers; it simply means that

American producers shall have at least an equal opportunity to supply the demands of American consumers."

A recent cartoon in Harvey's Weekly represents President Wilson presenting to a dove what is supposed to be an olive branch of peace to be carried to an expectant world. The branch is labeled "League of Nations," and is about the size of the forestock of an old-fashioned fireplace. It is altogether too big for a dove and we doubt if the great American Eagle herself will undertake to carry it.

Despatches from Canada tell us that farmers there are having great difficulty in getting the necessary help for their spring work. The same difficulty exists in this country and will continue till the general scale of wages in other business is less than four dollars for eight hours labor.

The deficit from government control of the railroads has been \$418,000,000. The deficit from management of the express companies has been \$14,540,000. These figures show the difference between efficiency and deficiency.

The participation of the United States in the work of making peace with Germany has been a disturbing element at the peace table has cost a great deal of money and has reflected no credit upon anybody.

If you Sweep the Apex Way You Never Have to "Clean House"

People who use Apex Cleaners no more have to "clean house" twice a year than they have to wash dishes twice a year or do laundry work twice a year.

Apex sweeping keeps the house clean every day all the time. You don't get the dirt out twice a year, you get it out as soon as you get the machine, and then you keep it out.

Spare yourself the misery of Semi-Annual Housecleanings

Just get an Apex on trial—and raising a speck of dust. It doesn't learn how ridiculous it is to let the dirt pile up.

Remember the machine not only cleans your floors—but, with its attachments, it cleans furniture, cushions, pillows, mattresses, cupboards, drawers, tapestries, walls, shelves, mouldings. It does it without phone, call us up and say

in a way to make semi-annual housecleanings as ridiculous as a semi-annual tooth brushing.

Does this seem too good to be true?

Then why not satisfy yourself, since you can do it absolutely free, without trouble, without obligation. Just step to your telephone.

DR. DUDLEY A. SARGENT.

A Boston exchange of May 3rd has the following news item of a former Belfast boy:

Dr. Dudley Allen Sargent, prominent physical training specialist, who has been director of the Harvard University Gymnasium for 40 years, resigned this post yesterday. He will leave his college duties Sept. 1st. Dr. Sargent is the founder and director of the Sargent Normal School of Physical Training for Girls, and his departure from Harvard will mean more extensive work with his own institution.

Dr. Sargent was appointed director of the Hemenway Gymnasium in 1879, and since then has been the leading spirit in the physical development of Harvard students. He was graduated from Bowdoin College in 1875 with the degree of A.B. In 1877 he received a medical degree from Yale University and master of arts from his alma mater.

In addition to his work as director of the Harvard gymnasium, Dr. Sargent received an assistant professorship of physical training at the university, which he held from 1879 to 1889. From 1890 to 1895 he presided over the American Association for the Promotion of Physical Training. He has written many works on physical training and invented several gymnasium appliances.

Private Carl K. Mathews has returned from overseas and relates most thrilling and interesting experiences during his several months in service.

A quiet wedding was solemnized on Thursday at 2 p. m. May 1st, at the residence of Mr. and Mrs. A. P. Wentworth of Lincolnville Center, when their youngest daughter, Miss Phebe Hunter Wentworth, was united in marriage to Horace Leslie Gray, J. S. Mullen, J. P., performing the ceremony with only the immediate relatives in attendance. The parlor was most tastefully decorated for the occasion. The bride looked most charming in a blue traveling suit, with georgette waist, hat and gloves to match. The happy young couple left immediately after the ceremony for a short honeymoon trip by auto to spend a few days at the Wentworth cottage at Temple Heights, Northport. Both bride and groom are popular young people and have a large circle of friends who extend congratulations. They will reside at the bride's home at Lincolnville Center.

The Proof That Belfast Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

I. W. Cross, retired farmer, 57 Miller St., Belfast, says: "I suffered considerably from a lame and aching back. I had been troubled this way off and on for about a year and a half. The attacks were often so severe I was compelled to lay off from work. I read of Doan's Kidney Pills and got some at the City Drug Store. They cured my back in a short time." (Statement given February 4, 1905.)

Lasting Results.

On November 1, 1916, Mr. Cross said: "I have the same high regard for Doan's Kidney Pills now as when I gave my former statement, recommending this medicine. The cure they made for me at that time has remained permanent."

Arbor Day May 16th.

Friday, May 16th, will be Arbor day, according to a proclamation issued by Governor Milliken. The proclamation is one of the shortest on record, yet at the same time it is unusually interesting for it calls upon the people to plant trees as memorials to the soldier and sailor dead. It reads:

State of Maine
BY THE GOVERNOR
A Proclamation
In accordance with the provisions of the Statutes, I hereby designate
FRIDAY, MAY SIXTEENTH
as Arbor Day and urge its observance by all citizens, and especially by the children in the schools, by such ceremonies and programs as will best foster love for trees and appreciation of their value.

I especially suggest that trees planted on parks and school grounds and along public highways would be appropriate memorials to the heroes who have given their lives in the great war.

Dated at the Executive Chamber in the State House, at Augusta, this sixth day of May, in the year of Our Lord, nineteen hundred and nineteen and of the Independence of the United States of America the one hundred and forty-third (Signed)

CARL E. MILLIKEN, Governor.
FRANK W. BALL, Secretary of State.

While watching scenes of "Never Say Quit," a four-reel Fox film at the Colonial theater Friday evening Frank Condon of Augusta was very much surprised to see that the greater part of the picture was being enacted upon a schooner "Flora Condon" of which his father, Hiram Condon, was captain more than 30 years ago, cruising between New England ports and the West Indies.

Mr. Condon stated that the schooner was built in Belfast, Me., about 50 years ago by his uncle, Rufus Condon, and was named for his daughter, and that the ship still sails the high seas. He stated that the ship must have been borrowed for the purpose for which she was used in making the picture.

It is rumored that the Great Northern Paper company is to build a fine highway this summer from Greenville to Lily Bay, along the east side of Moosehead lake. If so, this will make one of the most beautiful rides in the whole eastern part of the United States. The Great Northern has already built a new highway from Lily Bay to the Grant farm and the famous Ripogonus dam, over 30 miles toward Mt. Katahdin. This will open a large stretch of country to seekers of beautiful scenery and means much to the development of that part of the state. No doubt it means that within a few years the autoist can go to Mt. Kineo over this route, and perhaps to Millinocket and Northern Maine.

When you're afloat in all sorts of weather, it's sound sense to give your feet and legs the best protection possible.

U. S. "Protected" rubber boots provide exactly that. They keep your feet and legs warm, dry and comfortable under the hardest conditions. They're specially designed for heavy service aboard ship or on dock.

Fishermen need these rugged, double-duty rubber boots, just like the boys did in the navy. The Government probably used more U. S. "Protected" rubber boots during the war than of all other makes combined.

There's economy as well as reliability in U. S. "Protected" rubber boots. Reinforced where the wear is greatest, they stand the gaff of hard usage. Longer wear means money saved.

Your dealer has exactly the kind of "U. S." you want, or can get it quickly. Remember, every pair bears the "U. S. Seal"—trade mark of the largest rubber manufacturer in the world. Look for this seal. It means protection for your feet, health and pocketbook.

JAMES BATTLES.

The sudden death of James Battles occurred at his home in Frankfort Monday, April 28th. He was 66 years of age and one of Frankfort's most respected citizens. He leaves his wife, Mrs. Mary Battles, and one son, James Edmund Battles of Watertown, Mass.; also four brothers Frank of Bangor, Michael and William of Milford, Mass., and John Battles of Ireland; four sisters, Mrs. Patrick Donlin, Mrs. Coleman Carr and Mrs. Louise Farnsworth all of Frankfort, and Mrs. Kathryn Richards of Searsport. The funeral was held Thursday morning in the Holy Rosary church at Frankfort, Rev. T. J. Mahoney of Belfast officiating.

The government of the United States under its present administration—and through its War Department particularly—has been extremely lenient not only with traitors and near-traitors, but with I. W. W. and Bolsheviki. The government of the United States has treated the I. W. W. situation as though the I. W. W. are merely spoiled children who ought to be reasoned with; and not thugs, arsonists, dynamiters and assassins. In various departments of the government under the present administration there is the seed of leniency toward, if not compassion sympathy for, these murderous scoundrels. When the truth of these past few years has been revealed in its details, as it probably will be some day, the American people will be shocked to know how dangerously the tenets of I. W. W. and Bolshevism have interwoven themselves among people and officials in the confidence of the administration. —Sacramento Bee.

Thirty-four residents of Burnham, Waldo county, have filed a complaint with the public utilities commission against the Maine Central Railroad Company asking that the company be required to reopen and maintain the station at Winnecook, which was closed March 31, 1912. The complaints say that the company has maintained a station at Winnecook for over 20 years, and its closing has been a great inconvenience to the complainants and other citizens.

PEPTIRON IS GOOD

This Real Iron Tonic Combines Merit Economy and "Pepp."

Made from a formula that uses iron in most digestible form, pepton and gentian, are at stomach tonics, and every the best vegetable remedies for the nerves, and also manganese and other valuable nutrients—there's no question of the value of Pepton as a blood builder and strengthener.

The larger size of Pepton contains enough for a full month's treatment, while other so-called iron preparations contain only one-half or less.

The "pepp" or peppermint, with which Pepton does its work is noted by everyone who takes it.
From the first dose the system responds to the treatment, and you realize you are at last using a medicine that begins right, continues and ends right. Better get a bottle of Pepton today. Take two Pepton after each meal—then comes good blood, good appetite, and—pepp.

The news of the death of Henry F. Sproule of San Juan, Porto Rico, was received with regret by his relatives and friends here. No particulars have as yet been received, but as he was in his usual health only a few days previous to his death, it is presumed that he passed away very suddenly. His wife, who was a Winterport girl, Miss Abbie Deane, is a semi-invalid and much sympathy is felt for her in her bereavement.

Captain Benjamin Franklin Bussey of West Winterport passed away very suddenly at his home on Thursday morning. Although Capt. Bussey had not been as robust as usual since his attack of influenza in the winter, he remained active, attended to his usual duties and rode out frequently for pleasure or business purposes. He was born in Newburg and his age was 39 years and 6 months. He was a veteran of the Civil War having enlisted from Massachusetts. While in active life he followed the sea and made many trips to the Grand Banks. He was a member of the G. A. R. in Winterport until it was disbanded several years ago, after which he was mustered into the 22nd Maine Infantry, and attended a meeting of the organization the afternoon before he died. He was also an active member and frequent attendant of the Waldo County Veterans Association and was present at its last meeting on May 1st in Frankfort. While a young man he was united in marriage to Miss Caroline Holmes who survives him. From this union nine children were born: Edward who died at the age of 18; the names of the eight who survive him are Frank T., at whose home in West Winterport Capt. Bussey resided; Charles Everett, Guy, Mrs. Maud Welch, Mrs. Minnie Brown, Mrs. Caroline Lawrence and Mrs. Winifred Cool, who were all present at the funeral services which were held from the home on Sunday afternoon, Rev. Frank S. Dolloff of Jackson officiating. He also left five grandchildren, three of whom were present at the services. The interment was in Oak Hill cemetery at Winterport village in the family lot.

Mrs. Geo. A. Cole, chairman of the woman's division in the Victory Liberty Loan, has submitted the following summary of the work. The total amount solicited \$26,650, the allotment of the town being \$13,200, made an over-subscription of \$13,450. The following is a report of the number of subscriptions and amounts secured by each solicitor: Mrs. Geo. A. Cole, Cole's Corner, Bald Hill Cove to Oak Point road, 8 subscribers, \$3200; Mrs. R. L. Clements, river road from Oak Point road, including upper village to Commercial street, 16 subscribers \$4300; Mrs. W. H. Lord, one-half of central section of the village, 7 subscribers, \$3850; Mrs. T. G. Fellows, one-half of central section of the village, 18 subscribers, \$4950; Mrs. C. C. Moody, lower village, 4 subscribers, \$1150; Mrs. F. T. Bussey, West Winterport, 4 subscribers, \$350; Mrs. Fred A. Lowe, Goshen, 3 subscribers, \$1200; Mrs. George H. York, White's Corner, 5 subscribers, \$6950; Mrs. W. S. Littlefield, Ellingwood's Corner, 6 subscribers, \$850; total subscribers, 71; total subscriptions, \$26,650. The helmet for the largest number of subscribers the first week went to Mrs. Annie B. Clements, and the helmet for the largest amount solicited went to Mrs. Clara D. York of White's Corner. The chairman of the men's division, Mr. Geo. H. Clements, has been ready to give assistance to the committees whenever advice was needed and thanks are due him for his co-operation. It is gratifying to know that the town of Winterport, county of Waldo, State of Maine, the New England Division and the nation have again proven ready to settle for the expenses incurred in the greatest war in history.

A LIFETIME OF SUFFERING

The Wonderful Fruit Medicine

53 MAISONNEUVE ST., HULL.

"In my opinion, no other medicine is so good as 'Fruit-a-lives' for Indigestion and Constipation.

For years, I suffered with these dreaded diseases, trying all kinds of treatments until I was told I was incurable.

One day a friend told me to try 'Fruit-a-lives' (or Fruit Liver Tablets). To my surprise, I found this medicine gave immediate relief, and in a short time I was all right again". DONAT LALONDE

approaching marriage to Mr. Clarence Hamlin, a citizen of Brooks. Shortly after eight o'clock, the guest of honor arrived, accompanied by Mr. Hamlin. Great was her surprise, when she found the hall prettily decorated with flowers, banners, and rugs; and along the sides of the hall, she saw chairs on which were about seventy-five of her pupils, friends and acquaintances. She hesitated to enter, but soon she heard Lohengrin's familiar strain, played by Miss Beatrice Austin, then she finally realized that she must march with Mr. Hamlin down the hall between rows of smiling faces, to chairs which were placed at the far end of the hall. When the affianced couple were seated, an electric iron, the gift of the High School, was presented to them, by Miss Hedman, who explained that an electric iron was a most happy choice for a gift, for not only had it firm and enduring qualities in its natural capacity, but these same qualities were symbolic of the many firm and enduring friendships, which would follow Miss Weaver through life. Miss Hedman also presented many more, beautiful and useful gifts of friends in town, and finished by saying that pupils, teachers, and friends united in wishing Miss Weaver all the happiness and prosperity which life affords. Later, a social time was enjoyed by all present. Those who wished to play whist, might do so, tables were arranged for this purpose along the sides of the hall, while for others who might wish to dance, opportunity was given in the center of the hall. Delicious refreshments of punch and cake were served by Mrs. Greenwood and Mrs. Toner. The remainder of the evening was pleasantly spent in more games and dancing; and the party broke up at eleven after an exceedingly pleasant evening.

After an absence of 12 years, Mrs. Alice Poor Carey of Greeley, Colo., has returned to place the ashes of her mother, Mrs. Melissa Poor, in the family lot in the village cemetery. The burial service was given Sunday afternoon by Rev. Mrs. Harrison, in the presence of a number of old friends and neighbors.

Rosewood Chapter, O. E. S., served a public supper Friday night which was a success financially and socially. Among the out of town guests were Mr. and Mrs. Irving Hall and family, also Miss Flora Dunton, all of Belfast, and Mrs. Mary Packard of Castine, who is visiting relatives here.

THE HAPPY JACK CLUB. A Happy
Jack Thrift Stamp club has been formed
at the Peirce school under the direction
of Supt. E. E. Roderick. The story of
Happy Jack, the bright posters and the
little thrift chests in red and blue
with bright thoughts encouraging penny
saving appeal to the children. The teach-
ers in the school's six grades will have
charge of the boxes. The children saved
\$22.75 the first day, last Friday, of the
club's existence.

In accordance with the by-laws of the

lowing notice is given at this time: The
annual meeting of the Children's Aid So-

Home, 53 Northport avenue, Belfast,
Tuesday, May 20th, at 2:30 o'clock. The
order of business will be: 1st, to hear re-
ports of officers; 2nd, election of officers
and committees; 3rd, changes in by-laws,
and any other business peculiar to the
meeting.—Anne A. Craig, Secretary, Bel-
fast, Me.

The officers of Company F, Third Maine
Infantry of this city, have decided to dis-
continue the club which they have main-
tained in the Odd Fellows Block for the
past winter and the rooms will be closed
on the first of June. It is intended that
club rooms will be opened again in the
fall and maintained during the winter
months of 1919-20. The rooms have been
the source of much enjoyment to the
members and there has been some very
pleasant gatherings there for the past
season. The furnishings will be stored
for the summer and used again in the fall
when the club is opened.

The funeral of George L. McCarrison
was held at the chapel in Grove Cem-
tery Friday at 2 p. m., Rev. Charles W.
Martin of the Methodist church officiat-
ing. Mr. McCarrison's remains were
washed upon the beach at Hingham,
Mass., and were found by the police at
3:30 p. m. Tuesday, May 6th, about 10
miles from where he was supposed to be
when he met his death. The medical
examiner at Hingham found the cause of
death accidental drowning, Feb. 8th,
while employed by the Boston Sanitarian
Digestive Company. The remains were
recently identified by a letter written New
Years Day by his son Leroy M. McCarrison
in this city, and several pictures of
his grandchildren in his pocket. They
were taken to the undertaking rooms of
S. W. Ballows at Upham's Corner and
thence were shipped to Belfast accom-
panied by his widow and son Leroy, who
had been summoned by telegram. The
interment was in the family lot in
Grove Cemetery. Mr. McCarrison's obitu-
ary was published in The Journal of Feb.
13th. Mrs. McCarrison was com-
mended by her son Leroy, who returned to Boston
and after settling business matters will
return to Belfast to live.

ACCIDENTS. Raymond S. Aldus, em-
ployed at the Peipsespot plant, injured his
right forearm last Saturday afternoon by
catching it in the hoisting gear in the
yard. He was taken to the Waldo County
Hospital, where his wounds were dressed
by Dr. Carl H. Stevens, assisted by Dr.
Eugene L. Stevens. Several muscles were
lacerated but no bones were fractured.
He will be about in a few days, but it will
be several weeks before he is able to re-
sume his work. Sunday afternoon Nat-
hanial Curtis of this city was taken to
the Waldo County Hospital as the result
of an auto accident near the Harvey S.
Cunningham residence on Waldo avenue
extension. He was riding with Milton
Pierce and Edgar Smith when the ac-
celerator caught and at the same time a
front tire burst and the car turned turtle.
The other two men escaped injury, but
Curtis was taken to the Hospital by
James C. Durham, who was autoing in
that vicinity and went to his assistance.
He has three broken ribs and is other-
wise bruised. Young Curtis had but re-
cently returned from overseas duty where
he was wounded. He was employed in
the Leonard & Barrows shoe factory. Dr.
Eugene L. Stevens was called to attend
the case.

THE GIRLS' HOME. Mr. and Mrs.
William K. MacNeil, who for so long an
faithfully presided over the home and
farm at the Girls' Home, are now estab-
lished in their own home, a little farther
down Northport avenue. To fill their
places has required time and effort. The
new matron, Mrs. Addie K. Fletcher, is
proving herself a wise and efficient man-
ager, and is already a favorite with the
girls, as is also Mrs. Eva Wing, who
kindly consented to act as housekeeper
until some permanent arrangement could
be made. She will remain until May 19th
when Mr. and Mrs. Fred Greer will take
charge of the farming and housekeeping.
The directors consider themselves very
fortunate in this arrangement. Recently
the plastering fell in the dining room at
the Home. It will be necessary to re-
plaster the entire ceiling, and other minor
repairs are needed about the place. A
movement has originated in the Travel-
ers' Club to make some improvement at
the Home as a memorial to Mrs. Eliza-
beth Browne Brackett, who for so many
years gave the major part of her time
and thought to this institution. The
matter is in the hands of a committee
appointed by the Club—Miss Margaret
A. Dunton, Mrs. R. F. Dunton and Miss
Mabel R. Mathews. With this Club com-
mittee will co-operate another committee
appointed by the directors of the Home
as follows: Mrs. Mary C. Mansfield, Mrs.
Idella D. Rich and Mrs. E. P. Frost. Re-
cent gifts of money have been from Miss
M. J. Otis, from two "friends" and from
the Madisess Club of Brunswick. This
Club has also sent books, napkins and
ribbons. Clothing has come from Stock-
ton Springs friends, from Mrs. M. J.
Gunnison of Scarborough Beach, Mrs.
George Bagley of Mattap, N. Mass., Mrs.
Hart L. Woodcock, Miss Louise Hazel-
bine, Mrs. Frank R. Woodcock, Mrs. Lois
P. Sherman. The Guild and Circle of the
North Church have done real service in
sewing, both mending and making.

PEPTONA Will Help You

recovering from sickness have
difficulty in recovering their
strength.

Peptona, our best tonic, will be
found very helpful. It contains
tonic and strength building
principles to aid in enriching

It is pleasant to take and the in-
gredients are so combined that
they are easily assimilated even
by very weak stomachs.

The Saco Valley Canning Company's
plant in this city, through their field
agent, S. A. Parker, and their local man-
ager, Arthur Rondeau, have already
secured a large acreage of corn and beans
for canning purposes. If the season is

making contracts for corn, etc.

Capt. Albert Smith of Braintree, Mass.,

Letters received this week from John
H. Canning who is in the Radio Depart-
ment of the U. S. S. Idaho, the largest

that they have been for some weeks in
Cuban waters and that the climate is
very hot there. He says they have long
ago discarded shoes and socks and go
barefoot, and that white clothes have
taken the place of blue. The ship has
been there on standardization trials and
the location for completing her tests was
taken there in preference to the Rock-
land course. They expect to arrive back
in New York on the fifteenth of the month.

Byron M. Salter was the guest of honor
at a special meeting of the Jolly Nine
Club last Wednesday evening at the
home of Mr. and Mrs. Clarence E. Frost.
The house was appropriately decorated
with red, white and blue, in combination
with flags of all sizes. Mr. Salter related
some of his recent overseas experiences,
exhibited several interesting and interest-
ing souvenirs. Later ice cream and cake
were served and the program closed with
chorus singing with Miss Frances Maccom-
ber at the piano. Mr. Salter is a member
of the club and Mrs. Frost has from its
organization been its chaperone.

TREES FOR ARBOR DAY, May 16th.
To-morrow, Friday, is Arbor Day, and
with pleasant weather many trees should
be planted, not only in memory of those
who cared for them and are not here to
do the work, but also for the scenic
beauty and comfort of those who are
with us. The readers of The Journal
had an excellent object lesson in tree
planting in the recent history given of
the locust trees cut at the Head of the
Tide for the builder of the schooner Jen-
nie Flood Kreger. Attention is again
called to the generous offer of one of
Belfast's public spirited property owners,
who will give a limited number of vigor-
ous white ash saplings for Arbor Day.
Those interested may apply to Wallace
Bickford, 118 High street. Following their
established custom the W. C. T. U.
will plant a tree at the City Park, if the
weather permits.

Knit! and knit now! Word has come
to Miss Louise Hazeltine, chairman of
our Waldo County Chapter, A. R. C.,
that knitted articles must be ready by
the first of June in order to reach the
other side in time for the autumn demand
for warm clothing, as transportation ar-
rangements require about three months.
The needs of devastated France are be-
yond our conception; and the women who
would normally knit and sew for them-
selves are too shattered to be kept at
such work. They should be employed
out of doors. Every knitted article that
we can send helps just so much to relieve
suffering. Can you not at least knit chil-
dren's scarves which are extremely simple?
There are a lot of these to be made; also
children's sweaters and plain shawls—al-
ways very easy work. Get your yarn at once

Compare Goodrich 375's with other Ford Car Tires

If you have not used
these husky, de
luxé tires for the
Ford car, go at
once to a Goodrich
Dealer and say to
him, "Give me a
Goodrich Three-
Seventy-Five."

Compare it with an or-
dinary Ford-size tire,
and you will find it
bigger and burlier in
every way.

As a matter of fig-
ures and measure-
ments, it is an inch
bigger on the cir-
cumference, and
much thicker in the
cross section—that
is, a 31x3 3/4 inch
tire.

That extra size means a
finer looking, easier
riding Ford car to be-
gin, and longer lived
car and tires in the
end.

Though "Three-Sev-
enty-Fives" cost a little
more at the outset,
built to meet the
special needs of the
Ford car and bring
out its known virtues,
they soon reveal a
greater dollar econo-
my, which makes it
the better buy in the
long run.

Feeding the Yankee Division

The Y. M. C. A. fed the entire YD on the day of the big parade—20,000 doughboys were served between 11 and 12.30.

MILL ARMY FEEDS TROOPS

Y. M. C. A. Supplies Coffee and Sandwiches Along Line of Assembly.

Nearly 300 women and 250 men of the Yankee division benefited from the Y. M. C. A. program of hospitality but there were other details that would have loomed large except by this comparison. For instance the National War Work Council was responsible for the housing, the boarding of 2000 men, nearly a full regiment for as long as they were in Boston. From the time they arrived from Devens on Thursday until they entrained Saturday these men were the personal guests of the Y. M. C. A. Half of this number were put up by the Boston Y. M. C. A. on Huntington Avenue, the Cambridge building and the Army and Navy Y. M. C. A. in Charlestown. The other half were distributed about in the local Association buildings of Lynn, Malden, Melrose, Quincy, Newton, Chelsea, Everett, Wakefield and Somerville. Transportation was provided by the "Y" in and out of Boston for the men billeted out of town.

A special feature of the week at Devens was the presence of a large number of the "Y" secretaries who served overseas with the division. Most of these men and women marched with the troops in the parade, each one with the outfit he was associated with at the front.

Conspicuous amongst these were: Dr. C. E. Hesselgrave, Divisional Secretary with the 26th, whose home is in Manchester, Conn.; Miss Alice Carey of Hartford, his secretary; Mrs. Louise Fleming of Wollaston, who was the idol of the 101st Sanitary Train, and who received her citation for bravery from General Edwards, one of the few women with the division to be so honored; "Sunny Jim" Toulon of Philadelphia, who operated the Sunshine Hut with the Sanitary Train and the 101st Eng.; Charles W. Coit of Rochester, N. Y., with the 102nd Inf.; W. J. Baker of Taunton, with the 2nd Bat., 103rd Inf.; W. C. Gordon of Boston, 101st Eng.; M. F. Albright of Allston, 101st Am. Train; H. W. Benedict, Bloomfield, Conn.; D. F. Hoagland of Hyde Park, 103rd F. A.; T. B. Lathrop, Bradford, Conn.; W. C. H. Moe, Westport, Conn.; P. M. Rose, Hartford, Conn.; H. F. Smith, West Medford; A. T. Steele, Winsted, Conn.; J. A. Wiley, Hartford, Conn.; L. L. Woods, Milton, Mass.

On Monday night Army and Navy Boxing championships of the Northeastern Department were conducted for the benefit of the YD. Silver and gold medals were given to the individual winners and a bronze shield was the prize of the winning district.

As the boats bringing home the men came into the harbor fully 5000 pounds of chocolate and thousands of packages of gum were thrown aboard. Four "Y" men, in most cases overseas secretaries, met the men at the Pier to welcome them with gifts. On the trains that bore the troops to Devens "Y" secretaries gave out current magazines, stamped postcards, and chewing gum.

During the parade, a corps of Y. M. C. A. singers, co-operating with other welfare organizations, greeted the soldiers with choruses under the direction of E. F. Nafziger, a song leader of international reputation, who was secretary of the Harvard Radio School hut.

"Y" Serves 20,000 Pints of Coffee

Every boy in the Yankee division received a box lunch and all the hot coffee he could drink before the parade—and perhaps it wasn't appreciated.

The wood working mills of Portland, Me., have closed their gates for an indefinite period. The men had submitted a scale calling for a 48-hour week and a minimum wage of 60 cents an hour, an increase of five cents, which the owners refused to grant. The mill owners' action of the union wood workers of this city, in closing their gates, was taken only after persistent attempts to get the Mill Men's Union to agree to the question of hours and pay by conference or arbitration.

Y. M. C. A. ACT AS HOSTS TO 26TH

And Twenty Overseas "Y" Men March in Parade

Lunching the 26th Division the day of the parade was the biggest single item on the Y. M. C. A.'s program of hospitality but there were other details that would have loomed large except by this comparison. For instance the National War Work Council was responsible for the housing, the boarding of 2000 men, nearly a full regiment for as long as they were in Boston. From the time they arrived from Devens on Thursday until they entrained Saturday these men were the personal guests of the Y. M. C. A. Half of this number were put up by the Boston Y. M. C. A. on Huntington Avenue, the Cambridge building and the Army and Navy Y. M. C. A. in Charlestown. The other half were distributed about in the local Association buildings of Lynn, Malden, Melrose, Quincy, Newton, Chelsea, Everett, Wakefield and Somerville. Transportation was provided by the "Y" in and out of Boston for the men billeted out of town.

A special feature of the week at Devens was the presence of a large number of the "Y" secretaries who served overseas with the division. Most of these men and women marched with the troops in the parade, each one with the outfit he was associated with at the front.

Conspicuous amongst these were: Dr. C. E. Hesselgrave, Divisional Secretary with the 26th, whose home is in Manchester, Conn.; Miss Alice Carey of Hartford, his secretary; Mrs. Louise Fleming of Wollaston, who was the idol of the 101st Sanitary Train, and who received her citation for bravery from General Edwards, one of the few women with the division to be so honored; "Sunny Jim" Toulon of Philadelphia, who operated the Sunshine Hut with the Sanitary Train and the 101st Eng.; Charles W. Coit of Rochester, N. Y., with the 102nd Inf.; W. J. Baker of Taunton, with the 2nd Bat., 103rd Inf.; W. C. Gordon of Boston, 101st Eng.; M. F. Albright of Allston, 101st Am. Train; H. W. Benedict, Bloomfield, Conn.; D. F. Hoagland of Hyde Park, 103rd F. A.; T. B. Lathrop, Bradford, Conn.; W. C. H. Moe, Westport, Conn.; P. M. Rose, Hartford, Conn.; H. F. Smith, West Medford; A. T. Steele, Winsted, Conn.; J. A. Wiley, Hartford, Conn.; L. L. Woods, Milton, Mass.

On Monday night Army and Navy Boxing championships of the Northeastern Department were conducted for the benefit of the YD. Silver and gold medals were given to the individual winners and a bronze shield was the prize of the winning district.

As the boats bringing home the men came into the harbor fully 5000 pounds of chocolate and thousands of packages of gum were thrown aboard. Four "Y" men, in most cases overseas secretaries, met the men at the Pier to welcome them with gifts. On the trains that bore the troops to Devens "Y" secretaries gave out current magazines, stamped postcards, and chewing gum.

During the parade, a corps of Y. M. C. A. singers, co-operating with other welfare organizations, greeted the soldiers with choruses under the direction of E. F. Nafziger, a song leader of international reputation, who was secretary of the Harvard Radio School hut.

Every boy in the Yankee division received a box lunch and all the hot coffee he could drink before the parade—and perhaps it wasn't appreciated.

The following was posted on a piece of so-called highway. We will not state where, but we know of several roads where such a notice would be timely and appropriate:

"This road is not passable, Not even jackassable, Those who wish to travel it Should turn out and gravel it."

Children Cry FOR FLETCHER'S CASTORIA

"UN-CHRISTIAN, UN-AMERICAN"

E. F. Albee, President of Keith Circuit, Bars Slurs on "Y" Work in His Theatres

Vaudeville performers in the Keith theatres have received orders from Edward F. Albee, president of the B. F. Keith circuit, prohibiting them from any slurring reference to the work of the Y. M. C. A. overseas.

"Un-American, un-Christianlike and a blot upon the intelligence and upon our gratitude for what the organization has done," is the way in which Mr. Albee stigmatizes criticism of the Y. M. C. A. in a letter addressed by him to A. G. Knebel, associate general secretary of the "Y" War Work Council.

He bases the statements in his letter upon information obtained by himself and the employees of his theaters throughout the country in conversation with thousands of soldiers. Mr. Albee declares that he personally knows "of the high esteem in which the theatrical profession holds the Y. M. C. A. and all kindred institutions that have done so much from the beginning of the war in the foreign countries."

He speaks also of the assistance that actors and artists have so freely rendered and are still rendering, to the Association, saying: "The Theatrical people, as a whole, have done splendid work, especially the artists, from the beginning of the war, and are still doing it, being active in entertaining the soldiers in the hospitals, at the cantonments, benefits of all kinds given for the relief and aid societies for our homecoming troops."

"The Young Men's Christian Association's devotion, energy and self-sacrifice," Mr. Albee continues, "has been so glorious and of such magnitude that one cannot believe that anyone would consciously criticize its great work, or refer to it in any way excepting in the most laudatory terms."

"I have read some wonderful letters from artists abroad connected with the Young Men's Christian Assn. who have been entertaining soldiers, who deny that there is any condition existing in the workings of that organization which is not of the most liberal and humanitarian kind."

Praise has been given to the workers of the Y. M. C. A. without stint, and to blame this great organization for the short comings of a few would be un-American, un-Christianlike and a blot upon the intelligence and upon our gratitude for what the organization has done. I have talked with hundreds of soldiers, I might say, through my employees, we have talked with thousands of them, who visit our theaters each week, especially the wounded, to whom we give an entertainment one morning of each week, and we have not, up to the present time, heard one adverse criticism. On the contrary, there has been nothing but unstinted praise for the self-sacrifice and the heroic deeds performed as stretcher bearers and other dangerous volunteer work by those who went abroad in the service of the Young Men's Christian Association."

TELLS STORY OF "IMMORTAL 26TH"

Y. M. C. A. Issues Book of Interesting Facts

"The Immortal Yankee Division" is the name of a combined divisional history, directory and book of statistics of the 26th which the Northeastern department of the Y. M. C. A. headquarters in the Little building, is distributing with its compliments. The book was compiled with the official cognizance of Maj.-Gen. Edwards, whose picture forms the frontispiece, and Maj. Hyatt, his aide, assisted in preparation of the material, which is official. A feature is "26 reasons why the YD will be remembered forever." A chronological table of "where the division has been" contains a condensed history of the organization. The vital statistics include the successive periods spent by the unit in the front lines, prisoners and material captured, the total casualties suffered, distance gained on different fronts and sectors occupied.

A table shows the identity of the various regiments, battalions, trains, companies, batteries, troops and detachments, with local organizations of various state services. There are also a list of battles, the present strength and the citations awarded the division and its subordinate organizations. The front cover bears the words: "The Immortal 26th," with YD insignia, and the back cover announces that one's discharge papers are good for three months' membership in his home town "Y."

Correspondence by the Ton

Paris, February.—Some idea of the number of letters American soldiers write home may be gained from the fact that a single item passed by the Y. M. C. A. Purchasing Department in one month was for 100,000,000 letterheads, and 100,000,000 envelopes, which are expected to last the soldiers three months.

Any worn out range burns at least five cents more in fuel every day than a new Glenwood. That's putting it small. 5 times 365 is \$18.25.

You see it doesn't take long to waste the cost of a new Glenwood, and the expense isn't all, the chances are the old range is the "worry kind".

It will surprise you to see how fast your list grows, and it is the habit of observation that makes life worth living. Violets, anemones, wild oats, blueets, arbutus and dandelions will make an easy beginning for your list.

A familiar landmark on the shore road has passed, in razing the fine colonial house for several years owned and occupied by Rev. R. G. Harbutt. The history of the building begins with a log house erected by Ensign Henry True whose death occurred in 1803. During the Revolution this shore was visited by the British and after a sharp skirmish several neighboring buildings were destroyed. Following the death of Ensign True the land was purchased by Shepherd Blanchard, who enlarged the clearing and replaced the log house with a substantial 1-1/2 story frame building, which will be remembered by its quaint arrangement of queer windows and three beautiful doorways opening west, north and south. Among the children born here were John, father of Hollis Blanchard, commander of the ill-fated steamer Portland, and Sarah E. Blanchard, who became the wife of Capt. John Pendleton and the owner of the homestead, which was later purchased by Capt. Henry Carver. The next owner was Charles F. Gordon, who purchased it to obtain valuable land north of the main road and sold the house and shore lot to Mr. Harbutt. For the past ten years the building has been unoccupied, its floors rapidly becoming so weakened that the present owner, Charles Lindsay, was unable to make use of it. During the past two weeks a crew of men have torn down the house, all the sound lumber having been purchased by William Wallace. Admirers of the fine old house regret the necessity for its destruction.

Mrs. H. H. Carter and Mrs. Austin W. Keating will leave Thursday for Boston for a few days' visit. Mrs. Carter on her return will be accompanied by her grandson, Roy Carter of Haverhill, who will spend the summer here.

The latest chicken story on the street has to do with the luck of an energetic housewife who had the temerity to put 21 eggs under a hen with the result that she has 20 vigorous chicks.

Albert Bennett, who started on a trip to San Diego some weeks ago, is greatly pleased with the climate and business prospects and has written to his family to join him as soon as possible.

Many friends will be glad indeed to learn that both Mrs. Charles Grant and Mrs. Elmer E. Thompson are showing marked improvement after periods which have caused great anxiety to their immediate relatives.

Leach, Miss Maude Herron, Miss Nellie Blanchard, Miss Elva Randall, Mrs. Sarah J. Clifford, Miss Amy Herron and Miss Marion Myrick.

A veritable host of friends stand ready to greet Capt. Leslie B. Shannon of the 101st engineers, who arrived Thursday from Boston, where he remained for a time following his discharge at Camp Meade. Since his return he has been passing the time very quietly with his mother on the Sandpoint road.

At the caucus of war veterans organizing the American Legion at St. Louis, mention in the daily papers of the work of Maj. Waldemar P. Adams of Portland, as chairman of the committee on a permanent name, is of passing interest to many in this town, for his maternal ancestors were of old line families here, and many relatives still survive.

According to the story in a press despatch Earle L. Ovington, president of the Sandpoint Shipbuilding Corp., lost a perfectly good automobile one day last week at the Atlantic City flying field. Having driven friends to the field who were intent upon making a flight, he parked his car in the tall grass of the field, where his friends were making a run in a plane before "hopping off" and clear it, the result being disastrous all round.

The Current Events club is appointed to meet on Wednesday, the 21st, with Mrs. William H. Morrison. Recently the club's circulating library has been enriched by a gift of 100 books in their cases, the donor being the widow of Edward E. Cheney, an old Stockton boy, who had accumulated a private library of some thousands of volumes. This memorial gift cannot fail of appreciation by a wide circle of old friends.

The Morrison fishing outfit arrived in the bay from Cutler, the winter quarters of the boats, Thursday. Capt. Roscoe Ackley and Lee Macker came into the harbor with the Uncas on Friday, leaving

Capt. Shuman in the Kearsarge at Castine for minor repairs. The sardine situation affords small reason for expecting any activity for a long time to come, but the fishermen have many weirs and much gear about the bay which require attention.

The number of through cars increases daily with the improvement in the roads. So far the use of the horn appears less than ever on the dangerous right-angle turn in the village square, and doubtless will so continue until the long-expected accident occurs. The unceremonious application of road signs to telephone poles in white painted blocks, one day last week, would have been looked upon a year ago as the work of German agents.

For the benefit of distant friends of the column, some of whom may be suffering from hot weather, it is mentioned that so far the spring has shown great reluctance; little gardening has been done, and no later than Friday night the ground was frozen in the north part of the town. A large number of people are suffering with "colds" of various degrees of severity; and the conditions generally are conducive to that attitude which finds expression in the male population by "growling" in a manner which is the highlight of those descendant from seafaring folks.

Walter F. Trundy, town clerk, is making a record of the service of each drafted and volunteer who went to the army from this town. The purpose is to make this record complete and accurate, to serve in years to come as trustworthy reference. Mr. Trundy has supplied The Journal correspondent with the following interesting data, a propos of the old statement that wars are followed by a preponderance of males in the birth statistics. In this town he finds that for the year 1912 the births were 13 females and 7 males; 1913, 11 females and 7 males; 1914, 15 females and 17 males; 1915, 7 females and 18 males; 1916, 2 females and 9 males.

A social affair of wide interest was the reception of Mr. and Mrs. J. Stanley Wardwell at Denslow hall on the evening of Tuesday, May 6th. The night was fine, the invitation general, and an exceptional number gathered to enjoy the hospitality of the newly-weds. Delicious refreshments were served most daintily in the Wardwell ice cream parlors on the floor below the hall. Favors were distributed and dancing was kept up till midnight. Besides gifts privately given, the bride was the recipient of a fine chair among a number of things presented by Lincoln A. Gardner in a few happy words in behalf of the assembled friends. An unexpected balance of a purse was used by the committee to procure a clock the following day. The young couple have the warmest good wishes of the whole community.

Mrs. Rufus L. Mudgett gave a small auction party at her home in Sylvan street, Thursday, in honor of Miss Emma Hichborn, who returned to Belfast Monday after a vacation of several weeks, in which time she has received much attention from old friends. The guests assembled late in the afternoon for the game, and after a few rubbers repaired to a perfectly appointed table for the enjoyment of a dainty luncheon. The hostess had spared no pains in carrying out an attractive color scheme of heliotrope, pink and yellow, with place cards and May baskets at each cover, and food fit for gods and auctioneers. Later, play was resumed unhampered by any curfew. Besides the hostess and honor guest, there were present Miss Nellie Hichborn, Mrs. Eleanor Colcord, Mrs. Bion B. Saborn, Mrs. Alvah C. Treat, Mrs. Franklin A. Patterson and Mrs. Harry R. Hichborn.
